

Phoenix

DESIGNED FOR **YOU**

WELCOME

Your home is your space and your space is your life. More than any other room in the house the bathroom is about the senses and how we sooth, pacify and reinvigorate them. Finding your dream bathroom has never been easier, with a comprehensive portfolio of products in a new and improved Phoenix brochure. All Phoenix products are designed in-house and manufactured to our cutting edge specifications, so you know that personalised care and attention has gone into offering the ultimate interior fashion while retaining and enhancing your everyday functionality. Whether you are aiming for eye-catching design, opulent comfort or minimalist practicality, we have the products for you. So let Phoenix guide you towards your sensory perfection.

DESIGNED FOR **YOU**

OUR BROCHURE

At Phoenix we recognise that every detail counts, and while everybody has an opinion about design we can sometimes be overwhelmed by choice. Our new brochure is designed to demonstrate our keen attention to detail and the extensive range of products available, but it will also open up your mind to new possibilities without making the important decisions more stressful. The easy-to-navigate content opens up your imagination to the aesthetic potential of your home as we let the products speak for themselves, but we also assure you that the key details and specifications are covered.

FURNITURE

All Phoenix bathroom furniture has been designed with a combination of functionality and elegant design in mind. Our range of contemporary storage solutions allow you to complement your bathroom design with the style and finish of your choice ranging from chic gloss to solid wood veneers clean, crisp lines for a penthouse look or a multitude of finishes for the practical family bathroom. To complete the appearance and reflect in style, choose from one of our luxury bathroom mirrors or cabinets.

DESIGNED FOR **YOU**

MEGAN SERIES

DESIGNED FOR **YOU**

MEGAN SERIES

With elegant simplicity and rounded edge design, the Megan series provides a homely feel to a family bathroom and can be enhanced with contemporary detail to provide a stylish modern bathroom too. Hidden handles create an unfussy, minimalist feel which is perfect for your sensory satisfaction.

MEGAN SERIES

Choose from our range of unique taps and accessories to complement the Megan series and retain its neat and uncluttered charm.

SANITARYWARE

Phoenix have designed a sanitaryware range with you in mind. Combining the conventional practical components with an array of shapes and designs to complement your bathroom, the Phoenix sanitaryware range covers every possibility in terms of available space, ambition and taste from the traditional to the contemporary.

Every WC in the Phoenix range is supplied with an anti bacterial urea soft close toilet seat, which will prevent those bumps in the night. Also supplied as standard by Phoenix is a quick release mechanism for the toilet seat and cover. This allows the seat to be removed and replaced easily for a thorough clean.

SIMA RIMLESS TECHNOLOGY

Sima sanitaryware is a unique design with a whole host of attributes:

It is hygienic because the open rim allows for simple and effective cleaning, the entire inside of the bowl is flushed completely and the precise flow of water avoids splashing right up to the open rim.

It is cost-effective and energy-efficient as it carries the ideal water flow for maximum flushing and saves water with a 3-4.5 litre flush.

Cleaning made easy with its quick release hinge system and ultra slim design.

It comes with a range of attractive, adaptable and timeless designs which give it the versatility to fit neatly into any bathroom suite, with the ultra-slim profile and soft close seat proving very popular features.

BRASSWARE | & SHOWERING SETS

Welcome to our comprehensive range of luxury bathroom taps and showering sets. Brassware can be modern or traditional but always makes your features stand out, and it can be the critical but often overlooked element that brings life to a bathroom suite. Similarly, a showering set may need to be discreet and unfussy or an elegant adornment to the more traditional bathroom, either way this section of the brochure will help you make the right decision.

Low Pressure Systems

All taps in the Phoenix range have been designed to work from a low pressure 0.2 Bar system, unless they carry the following symbols:

LP 0.5 Denotes a minimum working pressure of 0.5 Bar

HP 1.0 Denotes a minimum working pressure of 1.0 Bar

HP 2.0 Denotes a minimum working pressure of 2.0 Bar

Environmental benefits

The unique Phoenix Enviro-Click cartridge can halve the amount of water you use for certain functions to actively reduce your carbon footprint. Simply by selecting the first click for activities such as brushing your teeth or washing your face uses a 50% reduced flow of water, while perfectly supplying your needs. You can click again for a full flow of water for filling the basin, for example. This reduces your wasted water instantly.

Guarantees

All Phoenix tap ranges come with a 10 year guarantee.

All Phoenix shower valves come with a 5 year guarantee.

Thermostatic shower valve safety standards

The Government recommend the use of Thermostatic Mixing Valves (TMVs) for all bathroom functions. TMVs conforming to the Build Cert TMV2 and TMV3 Schemes can maintain temperature stability at all times, and will shut down safely in case of cold water failure to protect the user from scalding.

SHOWERING

welcome to our extensive range of shower valves and kits to make the everyday routine of showering the trouble-free and invigorating experience it needs to be, while also complementing the visual appearance of your bathroom suite.

Low pressure systems

All products in the Phoenix showering range have been designed to work from a low pressure 0.2 Bar system, unless they carry the following symbols:

LP 0.5 Denotes a minimum working pressure of 0.5 Bar

HP 1.0 Denotes a minimum working pressure of 1.0 Bar

HP 2.0 Denotes a minimum working pressure of 2.0 Bar

Guarantees

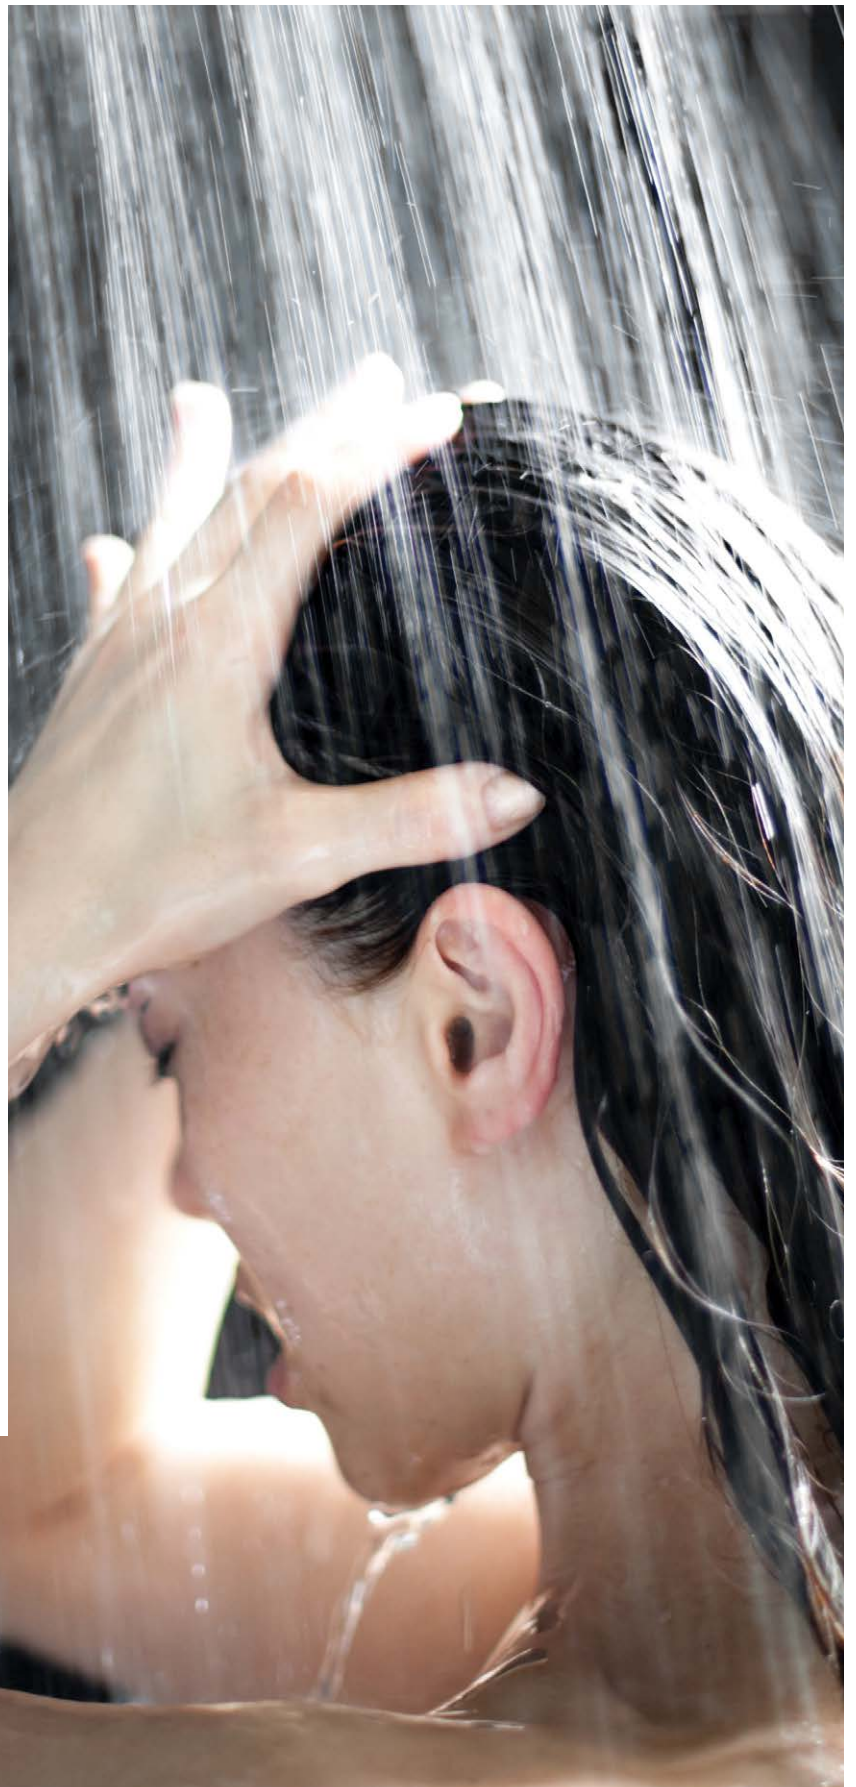

All Phoenix shower valves come with a 5 year guarantee.

Thermostatic shower valve safety standards

The Government recommend the use of Thermostatic Mixing Valves (TMVs) for all bathroom functions. TMVs conforming to the Build Cert TMV2 and TMV3 Scheme can maintain temperature stability at all times, and will shut down safely in case of cold water failure to protect the user from scalding.

All Phoenix shower valves come with a 5 year guarantee.

FILTERED | WATER

Luxury Kitchen Lever Including Drinking Water Filtration System

KT010 £270.00

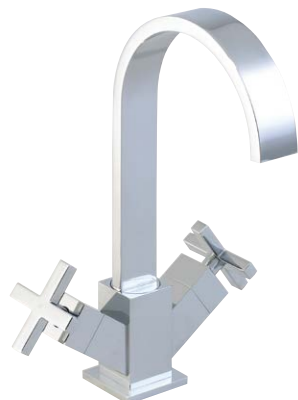

Replacement Filter Cartridge

DWC002 £33.00

Having filtered drinking water on tap couldn't be easier with the Phoenix system. This simply ensures a consistent water quality, and provides nourishing drinking water from your kitchen sink for all the family. Furthermore, our systems are discreet and designed to fit in with your kitchen design.

How do the filter cartridges work and what do they do?

- The 0.9 micro ceramic cartridge works by filtering out lime scale, dust particles, iron fibres, sediment and other impurities that find their way into our water system.
- The resin particles in the filter cartridge accelerate the water softening process giving softer, cleaner drinking water immediately.
- The silver activated carbon removes the chlorine pad smells and reduces bacteria such as coliform, cholera, typhoid, E.coli, fecal and restrains the re-growth of all the above.
- The nano silver elements kill 99% of bacteria due to their strong ability to absorb. The nano silver also penetrates deep into the bacteria cells breaking them down and preventing re-growth.
- Each filter cartridge has a 2,000 litre capacity before it will need replacing.

Square Twin Cross Handle Sink Mixer with Swivel Swan Neck Spout

KT002 £102.00

Two Hole Twin Control Modern Sink Mixer Tap

KT009 £87.00

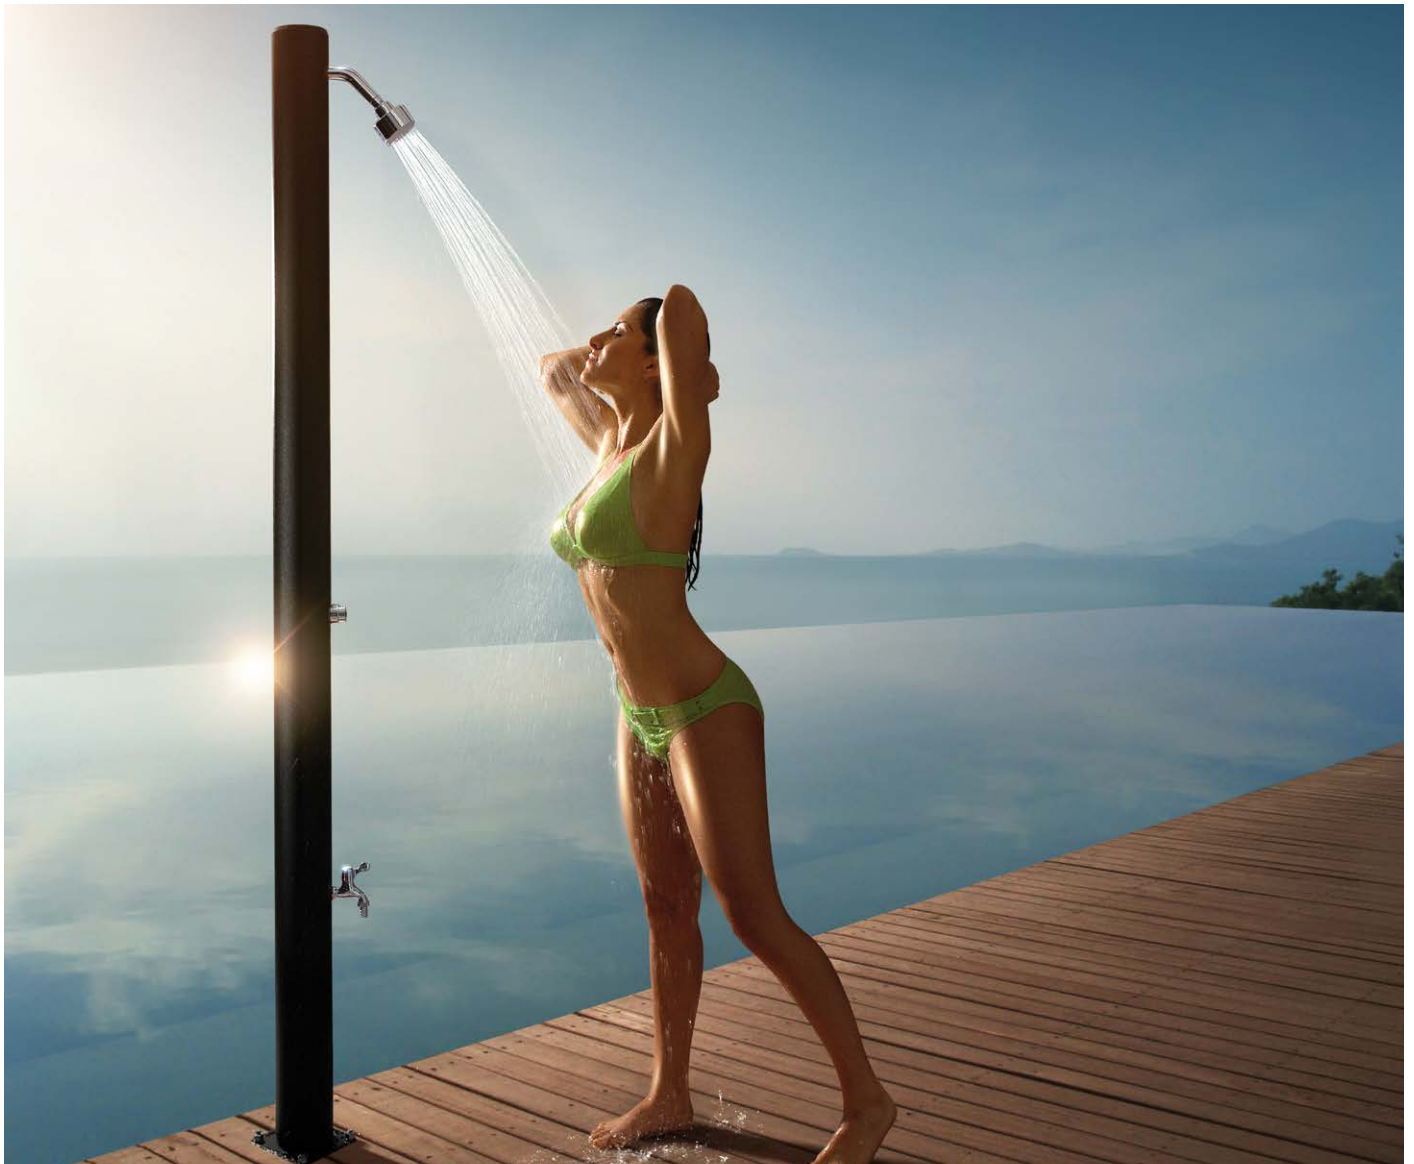

OUTDOOR | SHOWERING

At Phoenix we have thought of everything and can even service your needs for a free standing shower. This simple, beautifully-crafted and high quality free standing shower combines long-term durability with good looks and functionality.

Fully waterproof with a stainless steel base and a rigid

PVC shaft, the shower will survive any weather. The valve, tap and shower arm are an attractive chrome-plated brass and the shower head is directional and multi-purpose.

This shower is suitable for outdoor and indoor use in a wet room or walk-in shower room.

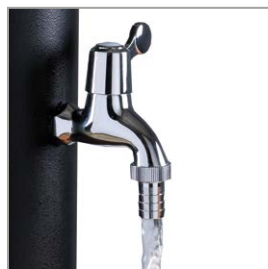

If you would like to use the Phoenix outdoor shower with 38°C water, simply use one of our thermostatic mixing valves for a constant supply of thermostatically regulated flow.

Modern chrome shower with directional head suitable for all members of the family to use.

Modern chrome timer button shower valve, easy to use and stops any unwanted water waste.

Modern chrome 1/4 turn tap, designed for use with or without garden hose.

Painted stainless steel base plate with four pre-drilled holes for ease of fitting to either decking or concrete.

SHOWER | ENCLOSURES

At Phoenix we understand that your shower enclosure needs be aesthetically-pleasing whilst being durable to withstand daily use, often by the whole family. Therefore the Phoenix range of shower doors and enclosures is geared towards this requirement for space-saving practicality and attractive but robust appearance. The range features a choice of glass thicknesses that are all toughened safety glass produced to UK and European standards, and also provides a choice of polished aluminium frames that combine durability with your desired look to complement the rest of your bathroom.

All Phoenix shower enclosures come with a 5 year guarantee.

EASY CLEAN

A factor in diminishing the bright appearance of your shower enclosure is the build-up of limescale residue and other contaminants. At Phoenix we provide a free-of-charge surface protection for all our shower enclosures clearly marked with the logo called Phoenix Easy-Clean. This is an invisible coating applied during the manufacturing process that helps ensure your shower maintains a 'new' look for as long as possible, by providing a barrier against the surface deposits that can dull the surface of your shower door.

You don't need to ask for this product, it is supplied as standard on all the Phoenix shower screens clearly marked with our logo.

LUXURY BATHING

A long soak in the bath is far more than just a run-of-the-mill affair. It can be a physical makeover or the solution to a mountain of everyday troubles and has been for centuries. As the oldest form of relaxation known to man, Phoenix have paid particular attention to this most calming of activities. So loosen up, unwind and splash around in the Phoenix range of luxury bathing.

Whether you are looking at a free-standing or traditional bath, or have palatial ideas for a large-size or even a unique-sized bath, Phoenix has a choice you will want to dive into straight away. We have a bath for every possible space from whirlpools and airpools to shower/baths for the en-suite or smaller bathroom.

For certain, there will be something in the Phoenix range that will have you dreaming of candles, bubbles, soft music and the age-old de-stressing and recuperative quality of a simple, long soak in the bath. So dip in.

DESIGNED FOR **YOU**

- G Safety Suction Filter
- H Dry-Run Pump Protection (Whirlpool)

Optional Extras:

- I Inline Heater
(including dry-run protection for whirlpool system)
- J Colour Kinetic Underwater Light
- K ELCB

Milan bath featured above

At Phoenix we have spent over three decades working with customers to develop our whirlpool systems and provide simple cleaning and maintenance solutions. This prevents some of the common problems people have found with other whirlpool systems.

The unique V-Jet system that we have designed ensures that the bath is fully drained every time, and the Phoenix Dry-run pump protection prevents the system running without water.

All Phoenix airpools feature jets which are made from low

profile chrome-plated solid brass. These are attractive and robust but also are fitted with a non-return valve which minimises water flow back into the pipes below the bath and prevents water sitting unseen while the bath isn't used.

You can also control your experience with our variable three-speed airpool blowers, which allow you to switch from a soothing ripple to a more invigorating blast.

Why not further enhance your airpool experience by adding a luxury colour kinetic under water? Lights available are featured below:

AMANZONITE

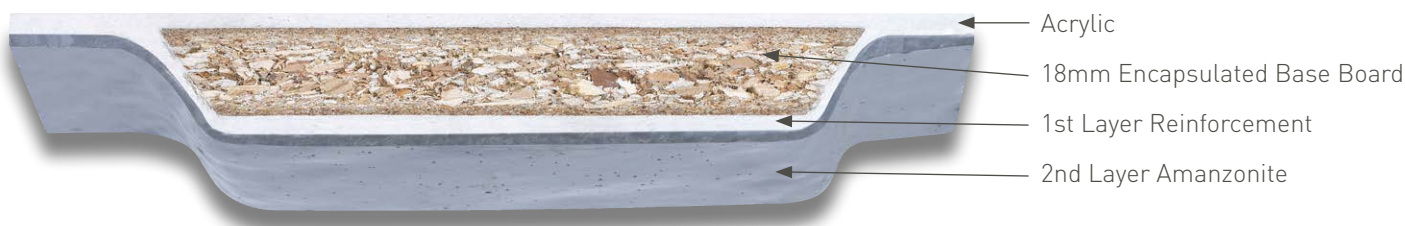

Over the last 30 years Phoenix have developed an unrivalled reputation for luxury bathing that incorporates the most versatile and contemporary designs.

This commitment to our customer doesn't start and end simply with shape, size and colour, we also look at the materials we use and how these can be manufactured to provide durable products that continue to deliver and offer you, the customer, the product lifespan you should expect.

Modern technical advances are always being analysed by our designers and one development we are proud of introducing to the market is Amanzonite, which delivers the ultimate in strength, rigidity and heat retention.

Amanzonite is a reinforced layer applied to our baths which enhances their thermal properties. This gives you a consistent bathing experience time and time again and ensures your bath is always the welcoming feature of the home that you need it to be.

The range of baths available with the Amanzonite finish is listed below, and although it was originally developed only for heavy duty applications, Amanzonite is now respected throughout the industry and is the barometer of quality by which bath manufacture is judged. As a result it has become our most popular bath option.

DESIGNER RADIATORS

There was a time when heating in the bathroom was simply about creating and maintaining a comfortable ambient temperature. Now we have the option of inventive designer towel rails and radiators that make a statement and add to the visual feast that your bathroom has become, whilst also providing a practical heating and drying solution.

Phoenix have a large selection of CE approved radiators with something suitable for every room. Our range utilises both electric and thermostatic heating elements to control your temperature in the easiest way possible.

SS 304 STAINLESS STEEL RADIATORS

Our stainless steel radiators are manufactured from the highest grade raw materials, which to the customer means they are hand-crafted to our specifications, providing the highest standards and clean, contemporary designs. A Phoenix stainless steel radiator is also suitable for all heating systems.

DUAL FUEL

All Phoenix standard designer radiators can be used in conjunction with water central heating systems.

However, we have also developed dual fuel radiators which can be used with both a water central heating system and as a stand-alone unit.

To use a dual fuel radiator as electric only – for example in the warmer summer months when just a small boost in heat is required – you need only switch off a flow valve to utilise a heating element. This will allow your radiator to be heated independently of the central heating system, providing warmth on tap in a cost effective and carbon-friendly manner.

You can gain even further control of your heating levels with the dual fuel radiators by utilising either a standard heating element or a thermostatic element.

Each radiator style will be marked with the relevant symbols for fuel types available:

-  **£65.00 DUAL FUEL**
-  **£105.00 THERMOSTATIC DUAL FUEL**
-  **£149.00 DIGITAL THERMO DUAL FUEL**
-  **PRE-FILLED ELECTRIC**

All our electric sealed radiators are supplied pre-filled with anti-corrosion fluid to maintain product quality for years to come.

Product compatibility is the responsibility of the installer.

All Phoenix radiators come with a minimum 5 year guarantee.

UNDERFLOOR HEATING

One of the things that puts us off getting out of bed or out of the shower on a winter morning is the inevitable shock of discomfort that comes with walking on a cold floor. Imagine the feeling of stepping out on to a nice warm tiled or boarded floor that has been pre-heated to your desired temperature?

Whether you want it as a primary heating source or for avoiding the aforementioned irritation on a frosty morning, Phoenix Underfloor Heating Kits are easy to install and provide heat where and when you need it most.

Every Phoenix kit is supplied with a touch screen programmable digital timer, which sets the temperature and the time exactly how you want it, and means you will be positively bursting to make the first cuppa on a morning, every morning.

Cold floors will be a thing of the past with the fully certified, tested and CE approved Phoenix Underfloor Heating Kit, which provides you with:

- A heating mat to your desired size
- A programmable touch screen digital thermostat
- Thermostat floor sensors
- Complete installation and operation manual
- Control card and full test certificate
- Multi-meter tester included

COST EFFECTIVE

At 1p/hour/sqm* (approx) running costs, there has never been a better time to consider Phoenix underfloor heating systems.

* based on energy prices at the time of going to print for an average 3 bedrooms semi of 10.5p/kWh. Calculations take into account the initial heat-up period and average room temperatures.

AMBULANT | ACCESSIBLE BATHROOMS

At Phoenix we are aware of the importance of safe and easy-to-use bathroom facilities for everyone, and our Ambulant Collection has been designed with care and attention to provide this critical functionality, whilst also retaining the aesthetic style of all our ranges.

Simple everyday tasks need to be straightforward and safe, and with this in mind our range consists of walk-in baths and level-entry shower enclosures for easy access, and soothing thermostatic showers and baths that you

can control. We also provide split-screen enclosures, comfort height WCs and discreet and tastefully-designed wall-mounted hand rails that complement the other features of your bathroom design.

This section shows you all the features and details that can be easily overlooked, but are essential in making those simple tasks achievable in order to maintain as much independence as possible.

COMFORT WALK-IN BATH | AMBULANT RANGE

£2195.00

THERMOSTATIC RIM-MOUNTED VALVE AND DIVERTER

REMOVABLE SEAT

EDGE | AMBULANT RANGE

The Edge furniture range follows all the Phoenix principles of providing both style and total practicality. Here the minimalist design mimics our most popular bathroom ranges but also provides a much closer access

to the wash basins and WCs. In this case less is more in terms of the eye-catching design, but also for the ambulant functionality.

PHOENIX PRODUCT GUARANTEE TERMS & CONDITIONS

All product guarantees are subject to the following terms and conditions. The product has been fitted/installed in accordance with the appropriate fitting instructions, local bylaws and general good plumbing practice. The product has been maintained and cared for in accordance with the instructions (including regular and appropriate cleaning). If any product has been modified, misused, neglected, willfully or accidentally damaged then the product guarantee is invalid.

The guarantee on all products is 12 months from the date of supply from Phoenix unless otherwise stated. The guarantee only covers the material structure and not moving parts that perish due to fair wear and tear. In the event of a guarantee claim, the liability of Phoenix is limited to the product supplied and does not extend to consequential loss or damage arising from defective product. The guarantee applies to the original purchaser ONLY and is not transferable. This guarantee does not affect your statutory rights and is applicable in the UK and Republic of Ireland.

The specifications and prices contained within this brochure are for information purposes only and as our products are continually updated are subject to change without prior notice. (All prices include VAT at 20%).

The photographs included are for general guidance and colours are limited to the restraints of the printing process.
